

Cookies Policy

1.1. What are cookies?

As is common practice with almost all professional websites, this Service uses cookies, which are tiny files that are saved to your web browser, to improve your experience and to enable certain features, such as authentication. This page describes what information they gather, how we use them and why we sometimes need to store these cookies. We will also share how you can prevent these cookies from being stored, however this may downgrade or 'break' certain elements of the Service's functionality.

Cookies may be either "persistent" cookies or "session" cookies: a persistent cookie will be stored by a web browser and will remain valid until its set expiry date, unless deleted by the user before the expiry date; a session cookie, on the other hand, will expire at the end of the user session, when the web browser is closed.

Cookies do not typically contain any information that personally identifies a user, but personal information that we store about you may be linked to the information stored in and obtained from cookies.

1.2. Cookies that we use

If you create an account with us then we will use cookies for the management of the signup process, for general administration and for preventing abuse and misuse of our Service.

We use cookies when you are logged in so that we can remember this fact. This prevents you from having to log in every single time you visit a new page. These cookies are typically removed or cleared when you log out to ensure that you can only access restricted features and areas when logged in.

When you submit data through a form, cookies may be set to remember your user details for future correspondence. In order to provide you with a great experience, we provide the functionality to set your preferences for how the Service runs when you use it. In order to remember your preferences we need to set cookies so that this information can be called whenever you interact with a page that is affected by your preferences.

We run an affiliate programme and as a part of it affiliates advertise our Service. With the affiliate programme we use tracking cookies to track users who visit our site through one of our affiliate partner sites in order to credit them appropriately, and where applicable, allow our affiliate partners to provide you with a bonus for making a purchase.

1.3. Cookies used by our service providers

We use Google Analytics to analyse the use of our Service. Google Analytics, among other methods, also gathers information about Service use by means of cookies. The information gathered relating to our Service is used to create reports about the use of our Service and how we might improve your experience. These cookies may track things such as how long you spend on the site and the pages that you visit. Google's privacy policy is available at www.google.com/policies/privacy/.

1.4. Managing cookies

You can prevent the setting of cookies by adjusting the settings on your browser (see your browser Help for how to do this). Disabling cookies will result in disabling most features of this Service. Therefore, it is recommended that you do not disable cookies.
