ISO 27001 Lead Auditor

Our **five day** ISO 27001 Lead Auditor course enables you to develop the necessary expertise to audit an Information Security Management System (ISMS) and to manage a team of auditors by applying widely recognised audit principles, procedures and techniques. You will acquire the necessary knowledge and skills to proficiently plan and perform internal and external audits in accordance with the guidelines of ISO 19011. Based on practical exercises, you will develop the skills (mastering audit techniques) and competencies (managing audit teams and audit program, communicating with customers, conflict resolution, etc.) necessary to efficiently conduct an audit. You will also receive access to an online resource that includes content, exercises, model answers, topical quizzes with feedback, module tests and a sample exam paper to prepare you for taking and successfully completing the PECB Certified ISO 27001 Lead Auditor exam on the final day of the course.

Aim

Acquire the necessary knowledge and skills to proficiently plan and conduct internal and external audits and effectively equip trainees with the necessary knowledge to achieve the ISO 27001 Lead Auditor qualification.
