# LOS ANGELES

Los Angeles is one of the most ethnically diverse cities in the United States, with a melting pot of different cultures, languages, food and traditions. Los Angeles is often billed as the “Creative Capital of the World”, one in every six people works in a creative industry. According to the USC Stevens Institute for Innovation, “there are more artists, writers, filmmakers, actors, dancers and musicians living and working in Los Angeles than any other city at any time in the history of civilization.” So if you are out having dinner with friends, the person sitting next to you could be a famous Hollywood Celebrity! Los Angeles is a unique city because the temperature is sub-tropical with many beaches, yet snow-covered mountains are less than 70 miles away. The temperature in Los Angeles is fairly consistent, where it's not too hot and not too cold, but just right. California Language Academy is perfectly located within a couple of miles from the best beaches in the world with Santa Monica Beach and Venice Beach only a short distance from our school.
