# START DATES

## SESSION START DATES

Greystone College has ongoing monthly or bimonthly session start dates depending on the schedule. Each session marks the start of a new course or set of courses. Our program start dates align with session start dates and programs follow one of two systems:

**Flexible Ongoing Sessional Entry:** In most of our programs, courses run in an ongoing, repeated sequence and students may enter the program on any session start date. In these programs, each course offers learning content that stands alone, and is not a pre-requisite to any other course in the program. Shorter certificates and single classes run on limited specific start dates.

**Set Entry:** Some programs are progressive meaning they begin with foundational learning at the start of the program and students continue to build upon their knowledge with each progressive course. To support student success, these programs are offered on limited set start dates.

## STUDY SCHEDULE/DELIVERY MODE

In all of our programs, you will build a timetable which combines 14 hours a week of face-to-face, in-class study and six hours per week online study. The in class study component includes exercises, discussion forums, and resources to help with assignments and to provide foundational academic and learning skills. The online study component features the core lectures with additional online assessment support and observations available.

- **Online Lecture:** Gain knowledge and skills in an intensive lecture delivery. Each lecture covers different content, so you need to attend both lectures.
- **In Campus Assessment Support:** Practical Assessment Support Sessions. Meet with your trainer and discuss any questions you have about your studies and/or assessments. This extra guidance will help supplement your online learning.
- **Additional Online Assessment Support:** This supplementary Online Assessment Support session provides an additional opportunity for students to access support remotely from their instructor.

Students are expected to have a computer or tablet that enables them to connect to the Internet in order to review material and submit assessments."
