

EAD-S

ELECTRIC ADVANCE & DROP WITH SWIVEL

The Electric Advance and Drop with Swivel TV Wall Mount is a one of a kind bracket designed to move a flat screen down to a more desirable viewing height.

The down and out movement make this ideal for mounting a TV over a fireplace as the EAD moves forward to clear a mantle piece and then drops down for a more favourable viewing position. A truly unique and creative solution.

With a motorised swivel feature, allowing up to 45° in either direction (installation and screen dependent), the EAD-S provides uncompromising viewing angles from anywhere in a room.

- Unique Forward and Drop (Out and Down) Motion
- Simple Hook-on Style Screen Mount (As found on the PS Bracket range)
- Perfect For Mounting TV Above Fireplaces
- Full Cable Management
- Smooth Quiet Motion

TECHNICAL SPECIFICATION

PRODUCT CODE	EAD-S
