## UNDER BED LIFT

The Under Bed TV Lift is a unique and impressive mechanism that stores a flat screen under a bed, negating the need for cabinetry at the foot of the bed. Compact and sleek in design, the Under Bed TV Lift offers an alternative to traditional flat screen TV lifts and with its pop up design, helps create a different dimension to the interior design of a room.

The Under Bed Lift is available in the UBL-EBF form with a motorised flap which opens before the screen is revealed and closes after it is concealed.

SPECIFICATION	
Max. Screen Size	1250mm (49.21") * 695mm (27.36") * 220mm (8.66")
Max. Screen Weight	40kg (88lbs)
