

## HAPPY HANDS™

**Happy Hands are innovative and colourful door stoppers, which prevents finger-trapping accidents from occurring on the handle side of doors when they are pulled, blown or slammed shut.**

- Simple to fit and easy to use, the Happy Hands door stoppers provide an effective finger protection solution to prevent handle side finger-trapping accidents.
- The door stopper is moulded in a fun yet functional hand shape design, ideal for accident prevention in children's environments, such as nurseries, schools and paediatric departments in hospitals.

### APPLICATION

- Easily fitted to any door using an adhesive pad, Happy Hands protect children from trapped fingers when doors are pulled or slammed shut.
- Allows your door to close completely by simply rotating the door stopper from the opening of the door.

### SPECIFICATION

- Available in a range of bright colours to complement existing decor.
- Designed, manufactured and tested for maximum durability in areas where children play and learn.
