

REMOVABLE WINDOW BARS

Removable window bars are the ideal solution for domestic and commercial applications where removal of the security bars is occasionally required.

- Manufactured from powder coated anti-cut steel bars, which can be fitted vertically or horizontally for internal fitting.
- The window bars are locked into place on the inside of windows using strong extruded aluminium retaining units, yet can be easily released from the inside to allow easy access for maintenance and visibility.
- Supplied in white as standard, though can be powder-coated in a range of other colours if required.
- Operated by a single radial lock point in which the key must be inserted into the lock before any rotation is possible. This unique locking systems means they are released simultaneously in seconds.

APPLICATION

- Our removable window bars are designed for use in both domestic and commercial properties who want a high quality security which can be removed as and when you please to improve aesthetic.

SPECIFICATION

- Each bar consists of a 19mm steel outer tube with a free-moving 15mm steel inner tube.
- The bars are locked into place using a high security 10 pin radial cam-lock with 5 million + key combinations.
- Guaranteed for a period of 12 months from date of purchase.
