

# ANTI-LIGATURE HOOK

The Anti-Ligature Hook is specifically designed to avoid injury and sometimes death from a rigid hook in environments such as public bathrooms and cloakrooms.

- Designed for use in environments with young children and vulnerable adults.
- Easy to install and fits to most surfaces with the correct fittings.
- Supports coats, backpacks, handbags and other articles which weigh up to 26 lbs.
- When the weight limit is exceeded, the hook automatically releases and the articles fall from the hook.
- The Anti-Ligature Hook automatically resets into the upright position.

## Application

Ideal for environments such as school and nursery cloakrooms, mental health facilities, hospitals, care homes and high security environments.

## Specification

Holds weight of up to 26 lb +/- 2 lb.

Available in white and beige.

Supplied with 3 mounting screws.

Made from high-strength polycarbonate.
