STOCK No. 18928 **BRAND** Draper Expert

BARCODE 5059482066559

WARRANTY Lifetime

FEATURES

- Strong and durable engineering grade plastic
- Robust I-Beam structure and C45 rail to reduce unwanted bending
- Quick release trigger makes one-handed operation easier
- TPU protective cushions to safeguard the workpiece from marking and damage
- Quick change button to convert the clamp to a spreader
- Long handle design for better leverage and reaching higher pressure easily

DESCRIPTION

This heavy-duty bar clamp is made from strong and durable engineering grade plastic. It is capable of evenly distributing up to 306kg of sustained clamping force. The robust I-Beam structure and C45 rail reduces unwanted bending. The TPU protective cushions safeguard the workpiece from marking and damage. One-handed operation is easy, thanks to the quick release trigger. There is also a quick change button to convert the clamp to a spreader. It is designed with long handles to enable better leverage for reaching higher pressure easily.
