DESCRIPTION

This comprehensive portable kit includes a hand-operated hydraulic power unit suitable for pushing, pulling, straightening, bending and spreading to return vehicle bodywork structures to their original form. Automatic bleeding. Long handle reduces the pumping required and the easy snap together interlocking extensions ensure swift body work repairs. The heavy-duty pump is fitted with an automatic safety overload valve. Strong flexible hose with spring guards at both ends. Compatible with other snap together kits and accessories. Supplied inside a sturdy plastic storage case.

Manufactured, tested and certified to EN1494 standard
