MEASURING WHEEL

44238

1. Intended Use

This measuring wheel is designed for counter-balance type long distance measuring. Any other application beyond the conditions established for use will be considered misuse. Draper Tools accepts no responsibility for improper use of this product.

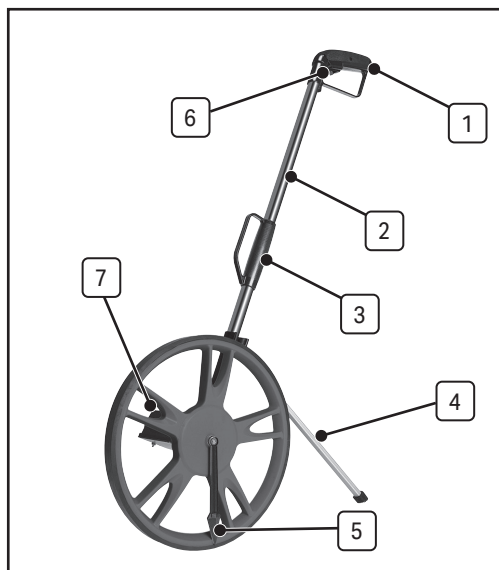

Read this leaflet in full before using this product and retain it for future use. Always use the latest version of the manual. Please visit drapertools.com/manuals for the latest version.

2. Specification

Stock No.:	44238
Part No.:	MWL
Effective range	99999.9 metres
Accuracy	+/-0.5%
Wheel diameter	318mm
Handle length	600 – 950mm
Batteries required	2 x AAA (supplied)

3. Identification

- 1 Handle
- 2 Folding rod
- 3 Extension sleeve
- 4 Support stand
- 5 Initial measuring point arrow
- 6 ON/OFF switch
- 7 Readout display with zero reset

4. General Operation

1. Place the measuring wheel at the starting point of the distance to be measured.
 - Ensure that the arrow is pointed directly down.
 - Ensure the counter has been reset and is displaying 00000.0.
2. Take a straight line to your object point and read the measurement on the counter.
 - **ALWAYS** reset the counter to zero before each measurement reading.
3. Ensure the surface being measured is as even as possible. An uneven surface will result in less accurate readings.

Fig. 1

5. Battery Replacement

- To fit or replace the batteries, remove the 3 screws from the handle to access the battery compartment.

6. Disposal

At the end of its working life, dispose of the product responsibly and in line with local regulations. Recycle where possible.
