FEATURES

- Cast iron table construction
- 0–45 Degree table tilting section
- Bench mounted or used floor standing – compatible stand available separately (Stock No. 98428)
- 50mm Dust extraction port
- Onboard storage for accessories

DESCRIPTION

This sander has rotating and oscillating action for increased speed and efficiency, making it ideal for precise finishing of intricate work. There is a large cast iron table for stability and enhanced material support. It can be tilted to 45 degrees to help with precision sanding. This sander can be bench mounted or used floor standing, and there is a compatible stand (Stock No. 98428 – available separately). To help keep the work environment cleaner and safer, there is a 50mm outlet port located at the rear of the sander for dust extraction. Onboard storage keeps accessories such as drums and table inserts neatly to hand. The power switch has a dust cover for ease of use and trouble-free performance. For operational safety, there is a no-volt switch and emergency stop button. It is supplied with three sandings sleeves and drums: 50 x 140mm, 38 x 140mm, 19 x 90mm. There are also six table inserts, offering a selection of round and oval cutouts.
