Draper Expert Digital Multimeter

STOCK No. 30629 **BRAND** Draper Expert

BARCODE 5059482076800

WARRANTY 12 months parts and labour

FEATURES

- Measures voltage, current and resistance across AC and DC circuits
- It can also measure capacitance, frequency, diode, continuity, temperature and carry out non-contact voltage sensing
- LCD display with auto shutdown
- Backlight

DESCRIPTION

This digital multimeter is designed to measure voltage, current and resistance across AC and DC circuits. It can also measure capacitance, frequency, diode, continuity, temperature and carry out non-contact voltage sensing. The device features an easy-to-read LCD display. There is a convenient backlight that will switch off automatically after 30 seconds. To help conserve battery life, the device will also automatically shut down and enter sleep mode after 15 minutes of inactivity. The meter is powered by 1 x 9V battery (available separately).

CONTENTS

1 x Needle probe set (1 x 19.5mm)
1 x Test probe set (2 x 17.5mm)
1 x Test lead set (1,000mm - 18AWG)
1 x Crocodile clip set

SPECIFICATIONS

Meter rating	CAT III 1,000V/CAT IV 600A
Power	1 x 9V PP3 battery (not supplied)
Fuse	1 x 10A/250V and 1 x 1A/250V
Sample rate	3 times/second
Resistance	0 ~ 60.00 MOhms
Hz	0-9.999MHz
