Waste Oil Drain, 30L

STOCK No. 11325 **BRAND** Draper

BARCODE 5059482081774

WARRANTY 12 months parts and labour

FEATURES

- Suitable for gravity draining of motor engine, gearbox and differential oils, transmission and power steering fluids
- Telescopic tube
- Level indicator to monitor oil level
- Height adjustable for optimal positioning
- Onboard storage for small tools and components

DESCRIPTION

The waste oil drain is a wheel-mounted, high-capacity solution designed for efficient waste oil collection and disposal. It is suitable for gravity draining of motor engine, gearbox, differential oils, transmission fluids, and power steering fluids from all types of motor vehicles on auto lifts. It features a centrally mounted 13L bowl that is height adjustable for optimal positioning during maintenance operations. The 30L tank includes a level indicator to monitor oil levels and prevent spills, deep and wide pockets for storing small parts and tools and a cap with a rubber washer to prevent leakage. Designed for excellent mobility and ease of use, this drain has a telescopic height range from 440-930 mm.

CONTENTS

1 x Waste Oil Drain, 30L
