FEATURES

- For air conditioning fitted to Audi, Volkswagen and Vauxhall/Opel
- Tamperproof bits for ECU, airflow, mass sensors and injection pumps
- Made from chrome vanadium steel and coated for corrosion protection
- Supplied in a sturdy plastic storage case

DESCRIPTION

This air conditioning and ECU tool kit is designed for removing plastic valve caps and valve cores during servicing and repairs on air conditioning systems in Audi, Volkswagen and Vauxhall/Opel vehicles. The kit includes tamperproof bits for use on ECU, airflow, mass sensors and injection pumps. Made from chrome vanadium steel, the components have a black phosphate finish for corrosion protection, except the SW12mm and SW15mm sockets, which have a satin chrome finish. Supplied in a sturdy plastic storage case.
