- Suitable for cleaning, deburring and surface preparation
- Compatible with most angle grinders with an M14x2 connection

DESCRIPTION

This twist-knot wire cup brush is designed for heavy duty work and delivers aggressive stock removal on ferrous metals. The brush is made from hardened steel wire, which gives a high level of durability and performance. The twist-knots are tight for a longer life and the twisted construction is perfect for quicker material removal in deburring and cleaning tasks. The cup shape works flat to the surface to cover a large surface area. Compatible with most angle grinders with an M14x2 connection.

Conforms to EN1083-1 and EN1083-2
