FEATURES

- Suitable for 1/8", 3/16" and 1/4" pipes
- Can be used on brass, copper, steel or aluminium tubes
- Quick change adjustment for different pipe sizes
- PVC grips

DESCRIPTION

This pipe bender is suitable for 1/8", 3/16" and 1/4" pipes, making it ideal for car brake pipes. It can be used on brass, copper, steel or aluminium tubing. The simple sliding mechanism allows for quick adjustments for different pipe sizes. Made from high-quality carbon steel with a blackened finish, and there is an aluminium alloy head. The handles are equipped with PVC grips for added comfort during use.
