230V Dirty Water Pump with Float Switch, 330L/min, 1100W

STOCK No. 27484 **BRAND** Draper

BARCODE 5059482108198

WARRANTY 12 months parts and labour

FEATURES

- Automatic float switch
- Thermal overload protection
- Carry handle for portability

DESCRIPTION

This dirty water pump quicky removes muddy, debris-filled water from flooded basements and construction sites. Ideal for tackling tough jobs standard pumps cannot handle by moving thick, contaminated water that would clog or damage clean water pumps. The automatic float switch turns the motor on or off depending on the water level. Equipped with thermal overload protection, which automatically switches the pump off if the motor overheats. The automatic air bleeds valves releases any air pockets in the pump. Lightweight and compact, it features a convenient carry handle for easy transport.

CONTENTS

1 x 230V Dirty Water Pump with Float Switch, 330L/min, 1100W

SPECIFICATIONS

Voltage	230V
Motor	1100W
Max output	330L/min
