FEATURES

- Made from steel with protective powder coated finish
- Ball bearing drawer sliders for smooth operation
- EVA anti-slip worktop mat and drawer lining
- Side handles and pull handle
- Two integral locks (each supplied with two keys)
- Easy to manoeuvre castors, two fitted with brakes

DESCRIPTION

This workshop and garage storage solution features a tool chest with two drawers and two cupboards, as well as a roller cabinet with four drawers. They can be used individually or combined to suit the task at hand. Both are constructed from sheet steel and have a protective powder coated finish that guards against scratches and corrosion. The spacious drawers have a stylish silver trim and are equipped with ball bearing sliders for smooth operation, along with a 2mm EVA liner to protect tools and prevent them from sliding around. The worktop is also lined with EVA for added protection. For easy manouverability, the tool chest includes side handles, while the roller cabinet is equipped with a sturdy pull handle and four large steel castors - two fixed and two swivel with brakes. For security, the cabinet has two integral locks to safeguard tools and each comes with four keys.
