DESCRIPTION

This cross-line laser projects a highly visible green laser cross for precise horizontal and vertical alignment of objects. It also has a manual slope function for easy creation of gradients and a 1/4" thread for mounting on the 45 cm compact tripod supplied, making it ideal for low-to-the-ground use. It has multi-section telescopic legs and a three-way tripod head for inclining, lowering, and tilting. The laser can also be used for outdoor applications and alignment work at long distances with the integrated hand-held receiver mode.
