- Steel: 0.7mm
- Steel handles & drawer pulls

DESCRIPTION

This complete steel storage unit combines two tall cabinets - each with two doors and three fitted shelves, two wall cabinets, two base cabinets with four drawers and a pressed wood worktop. It is styled with a matt black frame and powder-coated finish doors and is fitted with adjustable feet for stability. A fully lockable system is in place for security (six keys provided). Each unit is fully assembled and the workstation is supplied with all the fittings for a simple installation. This is a complete storage solution (individual components are not available separately).

CONTENTS

1 x Double Garage Workstation
