FEATURES

- Perfect for straight lines cutting in around doors and windows
- Suitable for water-based gloss and emulsion paints
- Flat cut synthetic solid round tapered filaments for an even application
- Stainless steel ferrule for durability and corrosion resistance
- Smooth unvarnished maple wood handle

DESCRIPTION

This angular cut brush is perfect for straight lines cutting in around doors and windows. It is most suitable for water-based gloss and emulsion paints. The SRT (solid round tapered) synthetic filaments make it easy to apply the paint smoothly and evenly. The stainless steel ferrule is corrosion-resistant, ensuring durability and longevity. The handle is crafted from smooth unvarnished maple wood, offering a comfortable grip for prolonged use.
