FEATURES

- Designed for maximum grip to remove damaged fasteners - studs, bolts and screws
- Made from S2 and chrome molybdenum steel
- Supplied in a robust plastic storage carry case

DESCRIPTION

This bolt extractor set in imperial sizes is designed for maximum grip to remove damaged fasteners - studs, bolts and screws. Made from S2 and chrome molybdenum steel for increased strength and durability. Can be used with 3/8" Sq. Dr. breaker bar or ratchet and also has flats so that they can be used with spanners or wrenches. Supplied in a robust plastic storage carry case.
