- 12-month BUNKER warranty, extended to 10 years upon registration

DESCRIPTION

The BUNKER S2 Slim Slider is a secure, space-efficient slim slider tool box designed specifically for in-vehicle tool storage. Built from rigid steel with a durable phosphate coating, the Slim Slider provides robust protection for your tools while making efficient use of the available space in your van.

Designed to securely fasten to your van floor, the BUNKER S2 Slim Slider combines durable construction with practical, easy-access storage. Its spacious sliding drawer runs smoothly on ball-bearing drawer sliders, allowing you to access your tools and equipment without having to reach into a traditional storage box. The slim design makes the slim slider tool box a practical choice for tradespeople looking to maximise their van storage without compromising on security.

Reinforced vehicle fixing points allow the box to be securely bolted to your vehicle floor, while high-performance disc locks provide additional protection for your tools. Adjustable feet help ensure a stable installation, and a discreet built-in AirTag holder lets you add a compatible tracker for added peace of mind.

The S2 Slim Slider also includes a small tool net, providing a convenient place to store loose parts and other small items that could otherwise be difficult to find in your van. Its combination of secure storage and easy drawer access makes it ideal for keeping frequently used tools organised and within reach.

The BUNKER S2 Slim Slider has been rigorously tested and certified as Silver by Sold Secure, as well as Secured by Design.

Whether you're looking for a slim slider tool box to make better use of limited van space or want to create a more organised vehicle storage system, the BUNKER S2 Slim Slider provides secure, practical storage that can be combined with additional BUNKER van storage boxes to create a setup tailored to your requirements.

All BUNKER storage products come with a 12-month warranty, extended to 10 years upon registration. Explore the full range of van tool storage from BUNKER today.
