230V Submersible Dirty Water Pump with Float Switch, 260L/min, 550W

STOCK No. 27477 **BRAND** Draper

BARCODE 5059482108143

WARRANTY 12 months parts and labour

FEATURES

- Submerge up to 7m deep
- Clears water quickly, 260L per min
- Automatic float switch
- Telescopic handle and compact design

DESCRIPTION

This submersible dirty water pump efficiently removes water containing solids like mud, sand, leaves and debris from flooded land, construction sites, basements, ponds and septic systems. Ideal for tackling tough jobs standard pumps cannot handle by moving thick, contaminated water that would clog or damage clean water pumps. The pump can be submerged up to 7m deep and its automatic float switch turns the motor on or off depending on the water level. Lightweight and compact, it features a convenient telescopic carry handle for easy transport.

CONTENTS

1 x 230V Submersible Dirty Water Pump with Float Switch, 260L/min, 550W

SPECIFICATIONS

Voltage	230V
Motor	550W
