FEATURES

- Two dual-sided sharpening stones for enabling sharpening, finishing and polishing of knife edges and tool blades
- Made from high-quality white corundum
- Silicon anti-slip base
- Angle guide to help control the angle and extra safety
- Leather strap for polishing and eliminating burrs
- Stone fixer for removing dirt and worn layers

DESCRIPTION

This set has two dual-sided whetstone sharpening stones - 400/1000 grit for quickly sharpening dull knives and a finer 3000/8000 grit. It is made from high-quality white corundum. The silicone non-slip base ensures the stones stays in place while sharpening. The angle guide helps to control the angle and provides extra safety. The set also includes a leather strap for polishing and eliminating burrs and a stone fixer for removing dirt and worn layers. It is suitable for sharpening a range of tool blades as well as household items such as kitchen knives and scissors.
