Medium Duty Bar Clamps

BRAND Draper

WARRANTY Lifetime

FEATURES

- Strong and durable engineering grade plastic
- Robust I-Beam structure and C45 rail to reduce unwanted bending
- Quick release trigger makes one-handed operation easier
- TPU protective cushions to safeguard the workpiece from marking and damage
- Quick change button to convert the clamp to a spreader
- Long handle design for better leverage and reaching higher pressure easily

DESCRIPTION

These medium-duty bar clamps are made from strong and durable engineering grade plastic. They are capable of evenly distributing up to 153kg of sustained clamping force. The robust I-Beam structure and C45 rail reduces unwanted bending. The TPU protective cushions safeguard the workpiece from marking and damage. One-handed operation is easy, thanks to the quick release trigger. There is also a quick change button to convert the clamp to a spreader. They are designed with long handles to enable better leverage for reaching higher pressure easily.

Stock No.	Clamp Type	Capacity
18877	Bar	150mm
18885	Bar	300mm
18893	Bar	450mm
18918	Bar	600mm
18923	Bar	900mm
