STOCK No. 31343 **BRAND** Estwing

BARCODE 5059482077692

WARRANTY 12 months parts and labour

FEATURES

- Premium hickory shaft, sanded and lacquered
- Induction hardened
- forged head
- Hickory shaft absorbs shock to minimise fatigue and enhance efficiency
- Machined and polished faces, bevelled to prevent chipping

DESCRIPTION

This Estwing engineer hammer is made from premium hickory imported from the USA. The drop forged head is induction hardened. The faces are machined and polished, bevelled to prevent chipping. Hickory serves as a natural shock absorber, intended to minimise user fatigue, reduce vibration, and enhance efficiency. This hammer is ideal for setting brick and tile as well as breaking tile and drywall.

ESTWING sledge hammers and striking tools are manufactured generally in accordance with BS 876
