FEATURES

- Sanding belt can be adjusted 0-90° with a horizontal or vertical standing
- 0-45° adjustable disc worktable with mitre gauge
- Dust extraction outlet
- No volt switch for safety
- Supplied with sanding belt and disc

DESCRIPTION

This robust belt and disc sander is powered by a 500W motor. The 100mm sanding belt can be positioned 0-90°, horizontally or vertically. The 200mm diameter disc is provided with its own worktable and mitre gauge. The disc worktable can pivot from 0-45° for accurate angle sanding. The discs are easily changed through the 'hoop & loop' mechanism. The machine has a no volt switch for safety. To keep the workspace clean and safe, the sander has a dust exhaust, bag and clamp. It can also be attached to a vacuum for greater dust extraction. The machine is designed and manufactured for sanding wood and similar materials and should not be used to abrade or grind metal. Supplied with sanding belt and disc.
