DESCRIPTION

Conquer clutter and grab what you need instantly with the BUNKER 3-tier trolley with a pull handle. This trolley streamlines your tool organisation, keeping everything accessible at your fingertips. Each of the three shelves is lined with EVA foam to protect your tools and prevent scratches. Plus, the retaining lip around the frame ensures that even the smallest tools and parts stay put.

The middle shelf adjusts to three different heights, accommodating tools of various sizes. A strong steel handle and four hardwearing castor wheels ensure smooth manoeuvring, while the two wheels fitted with brakes keep the trolley securely in place when needed.

For safety, there are side bumpers on all corners of the bottom tray.

Hardwood and stainless steel worktops available separately.
