FEATURES

- Specifically designed for use with an impact driver
- Shock absorbing torsion design increases torque performance
- Precision ground tips prevent cam out and screw damage
- Made from S2 steel for durability and long life
- Supplied inside a robust dual-injected plastic case

DESCRIPTION

This set includes a 1/4" hex impact magnetic bit holder, a selection of commonly used screwdriver bits and nut runners with magnets. The bit holder is made from chrome vanadium steel and stainless steel, which is correctly hardened and tempered for strength and durability. The screwdriver bits are made from S2 steel and have a shock absorbing torsion design for increased torque performance. Each has a blackened hex shank with a shot blast finish and precision ground tips to prevent cam out and screw damage. There are highly visible laser-etched size markings on the hex shank. Specifically designed for use with cordless impact wrenches. Supplied inside a robust duel-injected plastic case.

PZ-type products are compatible with *Pozidriv®/Supadriv® fixing systems. Draper TX-STAR® products are compatible with †Torx fixing systems. *Pozidriv®/Supadriv® are registered trademarks of Trifast Plc. †Torx is the registered trademark of Acument Intellectual Properties LLC.
