- Batteries and chargers are available separately

DESCRIPTION

This cordless 10.8V soldering iron is part of the Draper Storm Force® 10.8V Power Interchange series and is designed for heating solder for attaching or tinning electrical components, cables and conductors. It features a temperature indicator, LED light and a capacity indicator. The three-stop pivoting head offers 0, 45, 90° angle use to accommodate tighter positions and give a more comfortable and stable grip. Batteries and chargers are available separately. The Draper Storm Force® 10.8V interchangeable battery system allows users to combine one battery with any of the tools within the 10.8V Storm Force series (not compatible with Draper Storm Force® 20V).
