- Telescopic suction tube for use with 20-50L drums and flexible hose with swivel connection
- Ideal also for the rapid transfer of diesel, kerosene, antifreeze, water, oil, mild detergents and agricultural chemicals
- U-shaped hook for easy hanging on supply tank
- Powered by rechargeable Li-ion battery, capable of dispensing up to 300L of water
- Includes USB charging cable

DESCRIPTION

This rechargeable DEF/AdBlue pump is easy to operate and features a control nozzle with a lever for precise control over fluid outflow, ensuring no spillage even when the electric switch is on. It is also ideal for the rapid transfer of diesel, kerosene, antifreeze, water, oil, mild detergents, and agricultural chemicals. The pump comes with a telescopic suction tube designed for use with 20-50L drums and includes a flexible hose with a swivel connection. It can be conveniently hung on a supply tank using the U-shaped hook. Powered by a rechargeable Li-ion battery, the pump can dispense up to 300L of water and includes a USB charging cable.

CONTENTS
