FEATURES

- Designed for grinding various metals including steel, structural steel and sheet metal
- Made from premium quality aluminium oxide, which has been resin bonded and reinforced with fibreglass
- Manufactured to EN12413 standards

DESCRIPTION

Depressed Centre (DPC) grinding disc designed for grinding on various metal working applications including steel, structural steel and sheet metal. Manufactured from premium quality aluminium oxide, which has been resin bonded and reinforced with fibreglass to improve the strength and performance of the disc. The bore has a stainless-steel ring to allow the cutting disc to be safely mounted onto the machine. Manufactured to EN12413 standards.

Manufactured to EN12413 standards
