Inflatable Air Wedge, 160 x 160mm, 150kg Max. Load

STOCK No. 08972 **BRAND** Draper

BARCODE 5059482039737

WARRANTY 12 months parts and labour

FEATURES

- Powerful and controlled 150kg lifting pressure
- 2–50mm Expansion range
- 160 x 160mm Contact surface
- Pressure relief valve for controlled height adjustment
- High-frequency welded and bonded hose

DESCRIPTION

This soft air cushion provides a powerful and controlled 150kg lifting pressure. It is ideal to use when levelling windows, installing cabinets, positioning heavy doors and many more jobs. The wedge has a 160 x 160mm contact surface. The 2–50mm expansion range allows it to fit in the smallest of gaps and provide a high level of adjustment. It also has an internal reinforcement bar to ensure its inflation is rigid and does not fold up in tight places. It is fitted with a high-frequency welded and bonded hose to ensure it will not fail under pressure. Plus, it has a pressure relief valve to facilitate controlled decompression and height adjustment.

CONTENTS

1 x Inflatable Air Wedge, 160 x 160mm, 150kg Max. Load

SPECIFICATIONS

Contact surface	160 x 160mm
Max load	150kg
Expansion range	2–50mm
