FEATURES

- Designed for extensive use across a broad range of tasks and with ½" wrenches
- The socket is manufactured from chrome vanadium with a polished chrome finish to provide corrosion protection
- The Torx bit is manufactured from S2 steel and fixed to the socket
- The 125mm length allows access to hard-to-reach fixings and improves grip and torque

DESCRIPTION

This strong and durable socket with TX-STAR® T50 bit is designed for extensive use across a broad range of tasks and with ½" wrenches. The socket is manufactured from chrome vanadium with a polished chrome finish to provide corrosion protection. The Torx bit is manufactured from S2 steel and fixed to the socket. The 125mm length allows access to hard-to-reach fixings and ensures improved grip and torque. For use with Ford Transit wheel bearing bolts.
