230V Far Infrared Diesel Heater with Flue Kit, 67,500 BTU/19.8kW

STOCK No. 18104 **BRAND** Draper

BARCODE 5059482042874

WARRANTY 12 months parts and labour

FEATURES

- Highly efficient to run consuming just 50W of electricity and 1.7 litres of diesel fuel per hour
- Low noise and it heats evenly in all directions
- Comes with a remote control for ease of operation
- Thermostatically controlled with easy to use control panel and digital display
- Supplied with flue kit for a more permanent installation and it must be used in indoor areas that are not well-ventilated

DESCRIPTION

This indirect far infrared diesel heater with flue kit features a remote control and digital thermostat for easy heat control. It is economical, low noise, almost completely odourless and highly cost efficient to run. This heater consumes only 50W of electricity to keep the burner operating and it consumes as little as 1.7 litres of diesel fuel per hour. Unlike traditional fan heaters, infrared heat spreads evenly in all directions. Designed for heating spaces of approximately 110m^2. Can be used in well-ventilated areas such as garages, barns, workshops, warehouses and marquees. The flue kit supplied allows for a more permanent installation and must be used for enclosed indoor areas (not well-ventilated). The LED control panel features a 24-hour timer and full thermostatic control, all conveniently operated by the remote control. It is fitted with wheels for maneuverability.

CONTENTS

1 x 230V Far Infrared Diesel Heater with Flue Kit, 67,500 BTU/19.8kW

SPECIFICATIONS

Voltage	230V
Rated input	50W
Heat output	67,500 BTU/19.8kW
Fuel consumption	1.7L/hr
Tank capacity	45L
Fuel	Diesel/Kerosene
Dimensions	1235 x 320 x 1110mm
Weight (net)	58kg
