FEATURES

- Designed to aggressively cut fast to help improve work efficiency
- Open mesh design enables dust extraction to prevent clogging
- Lasts up to 4x longer than conventional paper backed abrasives
- Can be cut to size and are also reusable/washable
- Suitable for wet or dry use, and are ideal for de-burring pipes, removing solder and general sanding applications

DESCRIPTION

This pack of 10 silicon carbide abrasive strips are designed to aggressively cut fast to help improve work efficiency. The open mesh design prevents clogging and encourages a cleaner workspace. These silicon carbide strips can last up to 4x longer than conventional sanding strips. They can be cut to size and, due to being washable, they are also reusable. The strips can be used wet or dry and are ideal for de-burring pipes, removing solder and general sanding applications.
