FEATURES

- Enables drilling, screwdriving and hammer drilling
- Incorporates a LED work light, LED battery capacity indicator, and forward/reverse and variable speed features with an electronic brake
- Part of the 12V Power Interchange series
- The brushless motor ensures greater efficiency, enabling more power to be applied to the activity, and prolongs battery runtime
- Batteries and chargers are available separately

DESCRIPTION

This cordless brushless combi drill is part of the 12V Power Interchange series and enables three functions - drilling, screwdriving and hammer drilling. It incorporates a LED work light, a LED battery capacity indicator, and forward/reverse and variable speed features with an electronic brake. The brushless motor ensures greater efficiency, enabling more power to be applied to the activity, and prolongs battery runtime. Batteries and chargers are available separately. The 12V interchangeable battery system allows users to combine one battery with any of the tools within the 12V series (not compatible with Draper 20V).

Manufactured and certified to CE/UKCA
