12/24V Diesel Transfer Pump

STOCK No. 22108 **BRAND** Draper

BARCODE 5059482044267

WARRANTY 12 months parts and labour

FEATURES

- Self-priming pump
- Transparent inlet hose with filter to minimise contaminates
- Aluminium nozzle with two-speed trigger
- Lightweight and compact design
- Includes positive and negative leads fitted with spring loaded crocodile clips, plus other useful accessories

DESCRIPTION

This 12 and 24V diesel self-priming transfer pump is ready to use and is an ideal solution for refueling construction and agricultural vehicles and equipment while on the move. The transparent inlet hose ensures visually that the pump is priming sufficiently. It is fitted with a filter to minimise contaminates entering the pump's internal mechanisms. There is an aluminium pump nozzle with a two-speed trigger. The robust motor has a duty cycle of 30 minutes on/off. Its lightweight and compact design is great for easy storage and maneuverability. Supplied with positive and negative leads fitted with sprung loaded crocodile clips, plus other useful accessories.

CONTENTS

1 x Pump
1 x Pump nozzle
1 x Inlet hose
1 x Outlet hose
1 x Positive lead and clamp
1 x Negative lead and clamp
