- Hardened steel wire
- Tight twist-knots for a longer life and fast action
- Bevelled shape for accessing hard-to-reach areas
- Suitable for cleaning, deburring and surface preparation
- Compatible with most angle grinders with an M14x2 connection

DESCRIPTION

This bevelled twist-knot wire wheel brush is designed for heavy duty work and delivers rapid stock removal on ferrous metals. The brush is made from hardened steel wire, which gives a high level of durability and performance. The twist-knots are tight for a longer life and the twisted construction is perfect for quicker material removal in deburring and cleaning tasks. The bevelled shape gives the ability to access difficult to reach areas, in cracks or on edges at high speeds. Suitable for cleaning, deburring and surface preparation. Compatible with most angle grinders with an M14x2 connection.

Conforms to EN1083-1 and EN1083-2
