FEATURES

- Head forged from fine-grained, induction hardened special steel
- Steel core inserted into shaft for increased strength and durability
- Designed with a wider neck and handle covered with strong fibreglass to protect against overstrike
- Double injection moulded handle
- Shock absorbing non-slip grip

DESCRIPTION

This sledge hammer is designed for efficient performance, providing a balanced swing for easier handling and accurate strikes. The head is forged from fine-grained, induction hardened special steel. To enhance durability, a steel core is inserted into the shaft for increased strength and durability. The handle has a wider neck for improved stability and is coated with strong fibreglass to protect against overstrikes. Additionally, the handle is double-injection moulded and includes a shock absorbing, non-slip grip, ensuring comfort and control during use.

Manufactured generally in accordance with BS 876
