6-30V Automotive Diagnostic Probe

STOCK No. 23820 **BRAND** Draper

BARCODE 5059482071720

WARRANTY 12 months parts and labour

FEATURES

- Suitable for testing 6V - 30V systems
- Full colour LCD display
- Built-in torch for extra visbility
- DC voltage, AC voltage, resistance testing, diode testing pre-set modes
- Includes power adaptor with black and red lead and clamp, 12V DC adaptor, 6m extension cable
- Supplied inside a storage carry case for portability

DESCRIPTION

This diagnostic probe is suitable for testing 12V and 24V systems. It features a full colour LCD display and a built-in front LED torch for extra visibility. There are pre-set modes for measuring DC voltage, AC voltage, resistance and diode testing. Vehicle components can be activated either in-situ or pre-installation. It comes with a 6m extension cable, ideal for working on the rear of vehicles, trailers and trucks. The probe can be connected directly to the vehicle battery using the clamps or it can be plugged into the auxiliary power socket using the 12V DC adaptor. For convenient portability, it is supplied in a storage carry case.

CONTENTS

1 x Power adaptor with black and red lead and clamp

1 x 12V DC adaptor

1 x 6m Extension cable

SPECIFICATIONS

Weight	323g
Dimensions	155 x 40 x 30mm
12V DC adaptor length	30mm
Extension cable	6m
Tester cable length	6m
Positive and negative leads length	400mm
Probe length	90mm
Voltage supply	12/24V DC (vehicle battery)
Testing range	6V - 30V
