DESCRIPTION

The BUNKER 52" tool chest and roller cabinet is a premium addition to your garage or workshop, designed for both style and functionality. Made from high-quality steel and finished with a durable industrial powder coating and black anodised aluminium trim, this unit is built to last.

Each drawer features smooth, soft-close operation and foam lining to protect your tools. The tool chest lid lifts effortlessly with two quiet gas struts, revealing a soft-lined top tray. For added convenience, cable access is provided through two rubber grommets.

The unit is highly manoeuvrable, thanks to a sturdy steel handle and four hardy castor wheels, two of which are equipped with brakes for stability. Security is ensured by an integral lock supplied with two keys.

Available in blue, green, grey or black - discover the difference the BUNKER 52" tool chest and roller cabinet can make in your workspace.

BUNKER items are often sent on pallets. Their high-quality construction means that some products are heavy and will require two people to lift them.
