- Measures 350 x 5mm

DESCRIPTION

The BUNKER magnetic tool holder, measuring 350mm, is equipped with a powerful N52 neodymium magnet, ensuring your tools stay securely in place while remaining easily accessible when needed.

Featuring eight adjustable slots that accommodate tools up to 35mm in diameter, this holder is perfect for organising a variety of tools - from screwdrivers and pliers to wrenches and sockets. Designed with carabiner holes at both ends, it offers the added convenience of easy carrying or hanging while a durable coating protects the surface, enhancing longevity and resilience.
