- Die cast aluminium head with two threaded pockets for spare nozzles
- Steel barrel for regular greasing applications
- Capacity 3oz (85gsm). For use with bulk grease only
- Includes three interchangeable needle nozzles - 0.7, 1.0, 1.4mm

DESCRIPTION

This mini push type grease gun is ideal for lubricating hammer mechanisms in impact wrenches, air tools, bikes, lawnmowers, ATVs, RVs and more. It features a small tip opening that ensures precise lubrication. The grease gun has a steel barrel for regular greasing applications and a die cast aluminium head with two threaded pockets to hold spare needle nozzles, making it easy to switch between lubrication tasks. It is great for most flush fittings, so it is useful for lubricating a wide range of tools and equipment. Capacity 3oz (85gsm). For use with bulk grease only. Supplied with three interchangeable needle nozzles - 0.7, 1.0, 1.4mm, giving flexibility to tackle a variety of lubrication tasks.

CONTENTS

3 x Interchangeable needle nozzles - 0.7, 1.0, 1.4mm

1 x Hydraulic coupler

1 x Rigid spout
