- Includes 0.8, 1.6, 2.4mm

DESCRIPTION

This nail punch set is made from high-quality induction hardened steel, ensuring strength and durability. Each punch features a flared striking end that protects fingers from impact, enhances stability and improves accuracy. Designed specifically for driving nail heads below the wood surface, the cupped working end follows the nail head without slipping off. It can also be used to remove nails with exposed points, and the recessed tip helps back out nails when struck with a hammer. Each punch is equipped with an anti-slip TPR cushioned grip, offering shock absorption and better control. The grips are also colour-coded for easy size identification. The set includes 0.8 mm, 1.6 mm, and 2.4 mm.

CONTENTS

1 x 0.8mm (1/32") Nail punch

1 x 1.6mm (1/16") Nail punch

1 x 2.4mm (3/32") Nail punch
