FEATURES

- Made from resin bonded aluminium oxide for longevity and resistance
- Useful for chip removal and heat dissipation
- Highly durable non-tearing cloth backing
- Ideal for sanding and finishing wood, metal, aluminium alloy, painted surfaces, plastic and fillers
- Compatible with most spindle sanders including Draper Stock No. 10773 and 98425

DESCRIPTION

Made from high-performance aluminium oxide, these sanding sleeves are resin bonded for longevity and resistance. The electrostatic sand planting and semi-open coat aluminium oxide grain are useful for chip removal and heat dissipation. Highly durable non-tearing cloth backing. Ideal for sanding and finishing wood, metal, aluminium alloy, painted surfaces, plastic and fillers. Compatible with most spindle sanders including Draper Stock No. 10773 and 98425.
