- Low profile with 125-215mm lifting height
- Welded base and reservoir for enhanced strength and leak minimisation
- Chrome-plated pump piston
- Two-stage ram
- Four-piece handle
- Safety overload valve
- Capacity 10 Tonne

DESCRIPTION

This low profile bottle jack is ideal for vehicles closer to the ground, however it can be used on most cars - capable of lifting from 125-215mm. It has a welded base and resevoir for enhanced strength and leak minimisation. Equipped with a two-stage ram. It has a chrome-plated pump piston to prevent corrosion and prolong the life of the jack. Compact design and easily stored, it has a four-piece operating handle. Fitted with an internal safety overload valve. Fully tested and certified for safe, reliable operation. Capacity 10 Tonne.

Manufactured to BS EN1494 Specifications
